1. *Pharmaceutical industry* – The pharmaceutical industry is a highly competitive and regulated industry. It is characterized by high R&D costs, long development cycles, and high barriers to entry. The industry is dominated by a few large companies, and it is subject to strict government oversight.

This illustration depicts a highly complex, multi-layered structure, possibly a biological or geological formation. It features a central, more complex core surrounded by numerous smaller, repeating units that form a dense, textured outer layer. The overall appearance is that of a highly organized, multi-scale system.
