Figure 1 shows a map of the northern Adriatic coastline, spanning from Trieste in the north to the Gulf of Genoa in the south. Sampling stations are indicated by numbered markers (1-14) along the coast. The map includes a latitude scale from 44° 30' N to 45° 30' N and a longitude scale from 12° 30' E to 13° 30' E. A scale bar at the bottom indicates distances from 0 to 100 km.

1. *Pharmaceutical industry* – The pharmaceutical industry is a major player in the healthcare sector, responsible for the development, production, and distribution of drugs. It is a highly regulated industry with significant research and development costs.

Figure 1. The 1000 loci of the 1000 Genomes Project. The figure shows a map of the human genome with 1000 loci highlighted in red. The loci are distributed across the genome, with a higher density in the X chromosome and a lower density in the Y chromosome. The figure is a screenshot of the 1000 Genomes Project website.
