Figure 1. Percentage of respondents for various information sources used by librarians in 1997 and 1998

1998, 10% of respondents used electronic journals, 15% used electronic books, 25% used the Internet, 12% used CD-ROMs, 8% used microfilm, 8% used microfiche, 8% used video, 8% used audio, 12% used reference services, 12% used interlibrary loan, 12% used document delivery, and 8% used other sources.

The results of the survey indicate that librarians in 1998 used a wider range of information sources than in 1997, with a significant increase in the use of electronic resources and the Internet.

The survey also found that librarians in 1998 were more likely to use electronic journals (15%) and electronic books (10%) than in 1997 (10% and 5% respectively).

The use of the Internet increased from 15% in 1997 to 25% in 1998, indicating a growing reliance on online resources for information.

The survey also found that librarians in 1998 were more likely to use CD-ROMs (12%) and microfilm (8%) than in 1997 (10% and 5% respectively).

The results of the survey indicate that librarians in 1998 used a wider range of information sources than in 1997, with a significant increase in the use of electronic resources and the Internet.
